

Fast Internet, For What?

Why Do You Even Need Fast Internet?

Online Gaming? Go Play Outside!

100% more rage when you lose to lag, not skill.

Downloading a game update: Enough time to bake a cake 🍰.

Remote Work? Just Drive to the Office!

1-hour meeting = 3 hours of 'Sorry, you froze!'

Smart Homes? Just Flip the Switch, Lazy!

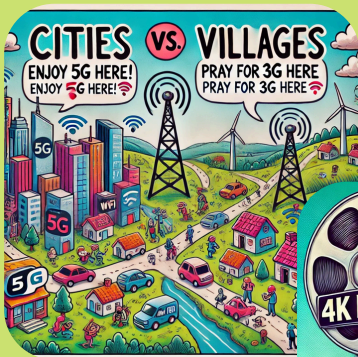

99% of smart home fails: 'Is the Wi-Fi down... AGAIN?!'

Okay, Fast Internet Isn't Perfect Either...

Faster plans cost more than your gym membership (that you never use).

"Cities vs. Villages"

- "Enjoy 5G here! 🏙️ / Pray for 3G here 🙏🏡"

One 4K movie = Your entire month's WhatsApp quota 🚫

Still Asking 'What's the Point?'

"P.S. You'll need it tomorrow to upload your 8K cat video. #Priorities 🐱🗣️"
